## **FJA announces 9-months-results already on 5<sup>th</sup> November 2002**

**Munich, 28<sup>th</sup> October 2002** – FJA AG (WKN 513010), the consultancy and software house for insurance companies and financial services providers, will publish its 9-months-results already on 5<sup>th</sup> November 2002 and not – as previously planned – on 7<sup>th</sup> November.

The reason for this are important meetings with investors during international conferences on 6<sup>th</sup> and 7<sup>th</sup> November. Since FJA has always aimed for transparency in its communication with shareholders and investors as well as analysts and the media, it was decided to publish the results two days earlier in order to provide all interested parties with the same information at the same time.

### **About FJA:**

FJA is a leading consulting and software firm in the insurance sector, specialising in developing and implementing standard software for insurance companies and other financial service providers. FJA software supports the development, the administration as well as the sales of insurance products.

FJA was formed in 1980 as Prof. Dr. Feilmeier, Junker & Co., Institut für Wirtschafts- und Versicherungsmathematik GmbH in Munich. In 1999, it was renamed FJA AG and since 21 February 2000 the company has been listed on the Neuer Markt of the Frankfurt Stock Exchange, and has been admitted to the NEMAX50 with effect from 18 March 2002. The members of the Management Board are Prof. Dr. Manfred Feilmeier (CEO), Rainer W. G. Herbers (COO), Michael Junker (CRO), Dr. Thomas Meindl (CFO) and Dr. Rolf Schwaneberg (CHRO).

FJA AG employs almost 900 people at offices in Munich, Berlin, Hamburg, Cologne, Stuttgart, Zurich, Vienna, Maribor (Slovenia) and New York.
